

# YOU WANT TO *maximize* YOUR BUDGET FOR THE NATIONAL CONVENTION, RIGHT?

**There are a lot of elements to  
any convention activity:**

- Local knowledge and connections
- Venue identification and booking
- Event logistics
- Negotiating with Convention management
- Inviting the right people and state delegations
- Coordination with your VIPs
- Getting them there - on time
- Getting them where they need to be next

The Conventions team was a great fit for us. They delivered on all tasks, were fun to work with, and priced right. We were very comfortable having them as our consultants to provide assistance and extra hands to assure all of our events were a success."

SARAH MOE,  
Formerly with the  
American Property  
Casualty Insurance  
Association

## **We can help you do that!**

We're Conventions 2024, and since 2008 we've worked with corporations and trade associations to plan and execute their national convention activities.

Let's face it, each convention is a one time deal in a new city with lots of moving parts. There are no make goods.

You want someone on your team who knows the layout, has the right connections, and brings the experience to make sure things go right.

*Our business is putting it together for you, so you can enjoy the convention and make your mark.*

*Let's talk.*
